"Lets start something great."

We Have Happy Customers!

"JD Sweid Foods fundraising is a great way for not-for-profits to raise funds to put towards their programming. The ordering system is very simple: great detailed sell sheets, good resources for the fundraising coordinator and great staff at JD Sweid make it an all round wonderful experience. The product is great, which sells itself. We constantly have people from within, and outside of the organization that ask when the next campaign will be! Thanks for an all round great experience!"

~Kevin

"I have been involved with JD Sweid Fundraising with various groups over the years. The products themselves are well received and priced well so they sell easily. The setup from the gathering of the orders to the delivery is a smooth process and one of the reasons we keep coming back to this as a fundraiser for our association."

~Brenda

"People love the product and ask for it by name before fundraising details are even made available. It is a product that helps families get to the fields faster by offering great tasting, fast solutions."

~Julie
